

REMA GOO

REMA GOO is a specially developed two-component polyurethane repair paste. It is intended for easy and fast temporary repair of small and medium conveyor belt damage. **REMA GOO** helps you resume operation quickly and minimizes unscheduled downtime.

REMA GOO has unique rubber properties unlike any other product on the market. The two-component polyurethane paste is solvent-free, features good UV resistance and remains flexible with no signs of ageing or fatigue.

A further advantage is its easy application with the **REMA GOO** application gun, the short curing time and excellent adhesion properties to rubber surfaces.

REMA GOO

Advantages

- 60 Shore A nominal hardness
- Hardness remains constant
- High elasticity
- No shrinkage after application
- Excellent oil and diesel fuel resistance properties
- Moderate resistance against chemicals
- Easy and fast application
- No mixing required prior to application
- Material remains usable up to 30 days after opening
- Doubling of adhesive strength in combination with one coat of the REMABOND SC Series

REMA GOO

Application process

1. Preparation of repair
(grinding, buffing, cleaning)

2. Application of **REMA GOO**,
filling of the repair

3. Finishing of repair

Technical data

	REMA GOO
Specific weight	1,08 g/cm ³
Tensile strength	9 N/mm ²
Elongation at break	825 %
Abrasion	165 mm ³
Resilience	50 %
Tear growth resistance	15 N/mm
Operating temperature range	- 40 to +120 °C
Hardness after 2 h (at 24 °C)	approx. 28 Shore A
Hardness after 24 h (at 24 °C)	approx. 60 Shore A

Ordering information:

REMA GOO Cartridge, 400 ml
Ref. No.: 525 3105
Includes 3 Mixer Tips

Accessory parts:

REMA GOO Manual Application Gun
Ref. No.: 525 3121

REMA GOO Mixer Tip
Ref. No.: 525 3114
Contents: 12 per package

The curing time of the repair paste depends on the ambient temperature and can be accelerated by heating.
