REMAXX MOUNTING AGENTS AND ACCESSORIES

High performance mounting assistance for optimal and careful assembly flows

REMA TIP TOP can offer a complete portfolio of mounting agents and accessories especially developed for the most diverse ranges of applications:

REMAXX UNIVERSAL

The mounting paste for universal use

- Best all-round characteristics
- Suitable for all standard tyre/rim combinations
- Non-spattering

Sliding effect	•		•	•	•	•	
Adhesion	•)	•	•	•	0	
Drying time	•)	•	•	0	0	

REMAXX SPORT

The power package for sport tyres

- Mounting paste perfectly suitable for wide tyres
- High initial sliding effect reduces seating pressure
- Non-spattering, powerful and fast-drying

	Sliding effect	•	•	•	•	0
	Adhesion	•	•	•	•	0
2 .	Drying time	•	•	•	•	•

REMAXX WAX-H

Leaves no traces

- Non-spattering, firm wax
- Suitable for all standard mounting applications on two-wheel vehicle and car tyres

The right choice for mounting tyres with TPMS sensors

Reduces the risk of potentially blocking sensors

• Sprayable solution, especially suited for clean mounting

Dries without leaving visible residues

REMAXX FLUID

Sliding effect	• • • • •
Efficiency	• • • • •
Transparent drying	• • • •

REMAXX MONT 2000

The competitive alternative for standard applications

- Mounting paste with high viscosity
- Great value for money
- Economic in use

Price-performance ratio	•	•	•	•	•
Efficiency	•	•	•	0	0
Drying time	•	•	•	0	0

REMAXX DEMOUNTING-FLUID

ACCESSORIES

Fluid with excellent flow properties for demounting tyres which are stuck on their rims

- Forms a low friction sliding coat between the bead and the rim Fluid can easily be wiped off tyre
- after demounting • Demounted tyre stays completely serviceable
- Free from mineral oil (not reaction with the rubber structure of the beads)

REMAXX BEAD SEALER

Spreadable sealant for sealing leaks caused by ageing or wear

- Applied to the bead and bead seat before inflating the tyre
- During inflation the solid matter contained in the solution is pressed into the uneven areas and seals them

REMAXX MONTSEAL

The specialist for retreading and the mounting of used tyres

- 2 in 1: mounting paste and bead sealer
- Perfect aid for used tyres and old rims
- Easy to apply in one operation

.

• • • • •

• • • 0 0

 Mounting paste especially developed for long sliding distances with high friction between tyres and rims

Sliding effect

Suitability for multi-pieced

Efficiency

rims/wheels

- Effective sliding coat
- Economic in use

REMAXX TRUCK

Oldie but goldie

Economic in use

of modern wheel systems

	Transparent drying	•	•	•	•	
950				•••••	•••••	

REMAXX LUBE LIQUID

The ace for agricultural tyres

- Liquid lubricant
- Especially developed for agricultural tyres
- Extremely economical

Sliding effect	• • • • •
Price-performance ratio	• • • • •
Efficiency	• • • • 0

尽 Caution: Because of its high lubricating effect, REMAXX Demounting-Fluid must not be used for mounting purposes since the tyre may slip off the rim when rolling!

7 Caution: As REMAXX BEAD SEALER is flammable, do not use it to fill tyres. Furthermore, do not use it to seal larger bead injuries caused during tyre mounting or cuts extending to the fabric.

TYRE COMPOUND

Stiff paste with stable viscosity to seal the gap between tyre bead and rim edge

- Can be used as a
- "flexible pump ring" Suitable for all tyre mounting operations
- Facilitates tyre inflation

SPECIAL BRUSHES

For the application of mounting lubricants

- Flat brushes are especially suitable for mounting low-profile tyres
- Brushes with round head are excellent for the application of mounting creams

REMAXX CREME-W

The expert for large tyres

- Mounting creme with soft texture (brushes do not sink in)
- Ensures the turn-up effect when mounting SE tyres

Sealing properties
